

Catalyst IT Pre-Screening

Junior PHP Developer Position (eLearning Team), Wellington

Thanks again for your application to work at Catalyst IT!

Catalyst has been dedicated to using the world's best open source software and tools to deliver robust IT solutions for our clients all over the globe for 20 years.

As part of your application to work at Catalyst, we'd like to ask you to take the time to answer a couple more questions, and also complete a small coding exercise.

Please feel free to type your answers into a reply email to us.

1. Can you tell us why you'd be a good fit for Catalyst IT (considering our company values)?
2. Pretend I'm in secondary school and explain to me what free and open source software is.
3. If you were starting up a new tech company with three other people, who would they be and why?
4. What are your salary expectations for this role?
